UPDATES: Mayor Brasseaux informed everyone that City Manager Don Chauvin is on vacation this week.

Street Overlay Project- Moss Street is the only street that hasn’t been overlayed in the overlay project because we are working with LCG on the plans. Because LCG has 2/3 of this road they are working with the contractor. Construction could be delayed until after January 1, 2022.

Fire Station on Gloria Switch- Construction is underway with dirt for the building pad being sourced from our stockpile behind the library. The sewer for the fire station will be provided with the 2021 Sewer Improvement project. The first bid process resulted in only one bidder at \$370,500.00 so it was re-bid which resulted in a low bid of \$291,976.00 for a \$78,000.00 reduction.

New Water Meters- The installation is 99.9% completed and the web portal has been successfully tested. The water meter website and phone app have been rolled out to the public over social media and at www.carencro.org. Customers are encouraged to create an account and install the app with directions available at www.carencro.org. The most useful feature may be leak alerts which are sensitive to detect 1 gallon per hour over 24 hours.

Amazon – Infrastructure Projects:

Sonnier Road Turning lane- Construction and striping are complete.

Lift Station- The lift station is operational. This is the Evangeline Downs Lift Station.

Gas System Upgrade- The distribution lines should be complete by October 22, 2021 and the regular station should be operational by November 6, 2021.

Mayor Brasseaux asked for a motion to amend the agenda adding the police station to proceed with the planning and design stage.

Councilmember Arceneaux made a motion to amend the agenda to add the police station to proceed with the planning and design stage; seconded by Councilmember Capritto; motion approved.

Police Station- Mayor Brasseaux recognized Mr. Lynn Guidry who thanked the councilmembers for meeting with him to discuss the plans for the new police station. The first option was to build the new police station behind the community center across from the current police station but it left with little room for growth. With the growth of the city and the opportunity for expansion, the best option would be to build on the 13 acres of property the city owns located on the southside of the library. This option seems to be the most logical choice.

Councilmember Babineaux made a motion to proceed with the planning and design stage of the new police station; seconded by Councilmember Sinegal; motion approved.
